OVERSEAS TRAINED SPECIALIST ANAESTHETISTS' NETWORK

4th Annual OTSAN Education Meeting Program

16th September 2016

Dear Colleagues,

I would like to invite you to the 4th OTSAN Education Meeting, which is to be held in Melbourne on Friday 16th September 2016.

OTSAN (Overseas Trained Specialist Anaesthetic Network) was established by overseas-trained FANZCA's in 2006 as a non-profit group. We support anaesthetists from abroad to achieve Fellowship and facilitate their professional and social integration in Australia.

Annual Meetings have become a well-attended feature in the calendar for updating knowledge as well as rejuvenating social connections. This meeting is the first satellite meeting of the ASA National Scientific Congress and will provide a good opportunity for all anaesthetic fellows and trainees to meet and learn.

This year we focus on 'Perioperative Medicine', as you will note that we not only have an excellent scientific program with expert speakers but also provide ample relaxed networking opportunities.

So come along and enjoy an impressive learning and socialising experience in Melbourne!

Dr Aihua WU, FANZCA (Convener)
